

MOTIF-DESCRIPTION

The Rodalben Rock Trail circles the town of Rodalben over a distance of approx. 45 km. The circular trail was created by the Rodalben tourist office together with the Pfälzerwaldverein Rodalben. There are great photo spots here, from huge caves to great distant views, such as the Bärenhöhle, the Alte Burg, the Bruderfelsen or the Rappenfelsen.

DIRECTIONS AND LOCATION

Bear caves: Coming from Pirmasens, take the first street on the right (Langenbach), there is a parking spot for hikers on the left. From there a marked path leads about 2 km to the bear caves, which are divided into 2 different caves; the lower one with a waterfall that falls about 5 m over the edge of the cave, and the upper one, which is one of the largest sandstone caves in the Palatinate.

PROFESSIONAL TIPS

All year round, with ice and snow and in autumn the absolute highlights on the caves and rocks; all day

Sun and clouds, especially when light penetrates through the canopy

16-35 mm, 35 mm, 24-70 mm, 70-200 mm details

Polarising filter and soft grey gradient GND 16, GND 8 but also for long exposure at the waterfalls ND 8

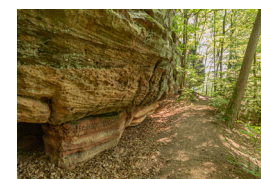

Tripod: Yes

From the Langenbachtal car park in Rodalben, you reach a narrow foot path to the bear caves after about 2 km. Passing the first cave with a waterfall, you will reach the photo spot after 100 metres. The photo spot is to the left of the cave - this is where the light falls particularly beautifully in the morning.
